Part II. Comments and Things to Fix (please indicate # of checklist item)

Something that I guess can be updated is the colour constants. Using all light colours might not attract the much traffic.

Part 3. Reflection – what I learned from doing the peer review**About the peer review process**

It was a great initiative. Loved exploring and learning new ways to code with this review session.

About what I might change in my own assignment

maybe add a background colour (only if does not spoil my layout)

About quality and design

I felt my assignment could have a little bolder colours and contrast.
